

# USE OF SARPHATI COHORT DATA INFRASTRUCTURE

### **RESEARCHER**

Main parts of needed information:

- Study population
- Request Sarphati Cohort variables
- Research design & methods, time planning.

#### Complete part B of the research proposal form

Share detailed information on your research for a final version aligned with Sarphati Amsterdam. Sarphati Amsterdam will assess the logistic feasibility of the data delivery plans and/or recruitment plans. Therefore, be precise when determining your requested data and recruitment plans.

#### Main parts of needed information:

- Participant information and inclusion criteria
- Cost-benefit participants
- Communication plan such as informed consent
- Practical planning
- Existing Sarphati Cohort data request and linking plans
- Ethical assessment

## Sarphati amsterdam research for healthy living

A draft version of the data delivery agreement will be shared by Sarphati Amsterdam. This includes:

- Important agreements about intellectual property
- Data delivery
- Security
- Project monitoring
- Conditions of use and publications.

#### Make it legal: signing a collaboration agreement

A draft version of the collaboration agreement will be shared by Sarphati Amsterdam. This includes:

- Conditions for Sarphati Cohort participant recruitment
- Coupling of data sources
- Publication and accessibility research data and results
- Intellectual property
- Security and project monitoring

## RESEARCHER Sarphati amsterdam research for healthy living

Data delivery will be prepared and executed as agreed in the data delivery plans.

START COLLABORATION!

The research proposal will be executed.

**Recruitment of Sarphati** Cohort participants will be prepared and approached as agreed in the recruitment plans.
